

Product information

Alpine Muffy[™]

COOL EARMUFFS FOR KIDS

Children are too often exposed to too much noise, which is too loud for them. Research has indicated that 1 out of every 8 children is left with permanent hearing damage because of this. Loud noise can also overload young children, due to which they can get stressed or have trouble concentrating and sleeping.

Safe and comfortable

The Alpine Muffy has been especially designed for the ears of small children and can be used in various noisy situations, such as parties, parades, firework displays, car and motor races and concerts. These earmuffs for kids are also very suitable for being able to learn and read in a more focused manner either at home or at school. The robust and comfortable Alpine Muffy is made of high-quality material. The adjustable headband covered in soft fabric fits any child's head so they won't grow out of it. The Alpine Muffy earmuffs can be worn by children of all ages. However, we recommend that they are not used for children less than 2 years old. For children aged younger than 5 years we recommend to use the earmuff only under supervision.

Trendy design

The Alpine Muffy is available in pink, blue and white. All three designs have a colourful, striped headband. The product is a Dutch design.
